**GENERAL VIEWS ON OCCUPATIONAL SAFETY AND HEALTH**

The EU Strategic Framework on Health and Safety at Work 2014-2020 supports the promotion of high standards for occupational safety and health both within the EU and internationally. It aims to address the major health and safety at work challenges facing the EU through the implementation of a range of different actions at national and EU level. For more information, please see the Framework itself, which can be accessed in your own language **here** (<https://eur-lex.europa.eu/legal-content/en/TXT/?uri=CELEX:52014DC0332>).

In this section, we are interested to understand your level of engagement with the existing EU Strategic Framework on Health and Safety at Work 2014-2020 and hear your views on how the situation within your country and/or the EU has changed since 2014.

Are you involved in or do you contribute to the design and/or implementation of occupational safety and health (OSH) policy, legislation and/or other measures? Please select what best applies to you.

- Yes, at EU level
- Yes at national or sub-national (regional, municipal) level
- Yes, I/my organisation are involved in OSH policy and/or legislation implementation in the workplace
- Yes, in another capacity
- No, not at any level

Please answer the survey from your own perspective – for example based on the situation in your company, your country or, if you deal with occupational safety and health (OSH) issues at EU level, based on the situation in the EU as a whole.

Thinking about the situation in your country / the EU, has workplace safety and health in your opinion become better since 2014?

- Strongly Agree
- Agree
- Neither Agree nor Disagree
- Strongly Disagree
- Don't know

Please specify why:

## VIEWS ON THE EU STRATEGIC FRAMEWORK 2014-2020

In this section, we are interested to understand your views on progress against the specific challenges and objectives identified in the EU Strategic Framework on Health and Safety at Work 2014-2020. The Strategic Framework defined 7 strategic objectives and a set of actions to be taken by different actors at EU and national level to help achieve each of these objectives.

The strategic objectives are:

1. Further consolidate national strategies

2. Facilitate compliance with OSH legislation, particularly by micro and small enterprises
3. Better enforcement of OSH legislation by Member States
4. Simplify existing legislation
5. Address the ageing of the workforce, emerging new risks, prevention of work-related and occupational diseases
6. Improve statistical data collection and develop the information base
7. Better coordinate EU and international efforts to address OSH and engage with international organisations

For more information on the challenges and objectives, please see the Framework itself, which can be accessed in your own language [here \(https://eur-lex.europa.eu/legal-content/en/TXT/?uri=CELEX:52014DC0332\)](https://eur-lex.europa.eu/legal-content/en/TXT/?uri=CELEX:52014DC0332).

Under its **first strategic objective** the **EU Strategic Framework on Health and Safety at Work 2014-2020** (<https://eur-lex.europa.eu/legal-content/en/TXT/?uri=CELEX:52014DC0332>) called on Member States to review their national occupational safety and health (OSH) strategies in light of the new EU framework. The Commission and EU-OSHA were tasked with establishing a database covering all national OSH strategies, and facilitating the exchange of good practices.

Under its **second strategic objective** the **EU Strategic Framework on Health and Safety at Work 2014-2020** (<https://eur-lex.europa.eu/legal-content/en/TXT/?uri=CELEX:52014DC0332>) called on Member States to provide support on implementing IT-based tools to facilitate compliance with occupational safety and health legislation. The Commission, in collaboration with EU-OSHA and/or other actors, was tasked with developing guidance, promoting the exchange of good practices, and carrying out awareness raising activities.

Based on your experience, do you agree or disagree that these actions...

## OVERALL OPINIONS AND VIEWS ON THE FUTURE OSH STRATEGIC FRAMEWORK

In this section, we are keen to understand your views on what should be included in a new EU Strategic Framework on Health and Safety at Work. This includes questions around key challenges and objectives that should be addressed, the type of actions which should be included and what the main priorities of such a policy initiative should be.

In your view, did the EU Strategic Framework on Health and Safety at Work 2014-2020 contribute to improved health and safety at work at...

	To a great extent	Somewhat	Very little	Not at all	Don't know
EU level?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

the workplace (for example in your organisation)?	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please briefly explain why you believe the EU Strategic Framework on Health and Safety at Work 2014-2020 contributed – or not – to improved health and safety at work.

**500 character(s) maximum**

It contributed to improve health and safety in terms of good practices, greater focus on emerging risks, and better SMEs' capacity in implementing preventive measures - although more guidance and support to implement legislation and simplifying on the ground, particularly for SMEs, would have led to even more improvements in OSH.

Also, the current legislative framework is sufficient. The European Commission focused too much on legislation and not enough on national best practices.

Thinking ahead to the next 7 years (2021-2027), how important do you think the following will be in terms of OSH policy and action at EU level to be included in a Strategic Framework?

	Im po rta nt	Slightly Import ant	Not Impo rtant	Don 't kno w
Effective application of OSH legislation	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Development and dissemination of OSH guidance, good practices and other awareness raising activities	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Promoting cooperation and coordination of OSH policies across policy areas, such as health, education, environment, chemicals etc.	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Promoting social dialogue	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Updating and adapting OSH related legislation	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

International cooperation and coordination of OSH policy	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

In your view, has the Covid-19 pandemic increased or decreased the importance of any of the following OSH-related issues...

Thinking about the future (the next seven years), do you think a new EU Strategic Framework on Health and Safety at Work and its priorities should...

- be discarded – there is no need for an EU-level OSH Framework
- remain broadly the same
- be updated/adapted
- other
- be fundamentally changed/adapted

Thinking ahead to the next 7 years (2021-2027): What are the key challenges that are common across the EU and require further OSH policy action? Please select up to four answers.

*at most 4 choice(s)*

- OSH risks emerging from ICT/digitalisation (increased digitalisation, AI, workers' surveillance, right to disconnect)
- OSH risks emerging from robotics/automation/new technologies
- Increased working from home / teleworking
- Risks from dangerous substances (e.g. chemicals / carcinogens)
- Preparedness for future threats to workers' health and safety (e.g. infectious diseases)
- OSH risks emerging from climate and environmental change (such as infectious diseases)
- Promotion of international OSH policy collaboration dimension
- Psychosocial risks (increased work intensity, blurring of work-private life, etc.)
- Other
- OSH risks emerging from the rise of platform economy (gig-work, increased precarious and atypical work)
- OSH risks emerging from nanotechnology/nanomaterials
- Ergonomic risks and musculoskeletal disorders (MSDs)
- OSH risks to specific socio-demographic groups (women, migrants, etc.)

What practical solutions do you suggest to address all or some of these key challenges?

One must not forget that such risks also represents opportunities in the future! Amongst others, these challenges can be addressed through higher investment in OSH training and OSH programmes, exchange of best practices, accompanying measures towards SMEs, so that can more easily comply with the legislation and the new trends, etc. In any case, national social partners should be closely involved in the implementation of practical solutions.

How important do you think it is that a new EU Strategic Framework on Health and Safety at Work covering the next seven years contributes to...

Should a new EU Strategic Framework on Health and Safety at Work define in detail a list of objectives, actions, timelines and actors involved in the implementation of such actions, or should it set a vision for the future, and a definition of goals and priorities?

- Define in detail a list of objectives, actions, timelines and actors involved in the implementation of such actions
- Set a vision for the future, and a definition of goals and priorities
- Don't know

In your view, what main issues should be included in the successor to the current EU OSH Strategic Framework, covering the next seven years?

*2,500 character(s) maximum*

- Coordinated actions between the EU and Member States is necessary to safeguard work and mobility, also under pandemic conditions

- Awareness raising campaigns and enhancing of knowledge is essential for employers and workers, especially towards the numerous construction SMEs. Voluntary preventive measures are crucial, while compulsory actions risk to remain unfulfilled, in particular because resources are scarce (e.g. the number of public occupational physicians is expected to decrease in the coming years).

- Such awareness raising campaigns and incentive measures are also important to further improve the culture of OSH within the construction sector: employers also depend on the workers' cooperation.

- The European Commission should not focus too much on legislative initiatives, but rather on the exchange of good national practices. This is in particular important as Member States tend to over-transpose EU legislations on OSH, which can have a counterproductive effect on the activity.

- All initiatives should be adapted to SMEs (simpler, more accessible, more affordable, less bureaucratic, etc.)

- The European Commission should further work on improving the comparability of available national data / statistics. This namely requires an harmonisation of definitions (i.e. concept of accidents at work).

- As regards legislations, the European Commission should focus on the effective implementation and application of the existing legislative framework and limit the production of new binding rules.
