

Building a resilient and sustainable Europe together

MANIFESTO FOR
ACTION FOR THE
EU TERM 2024-2029

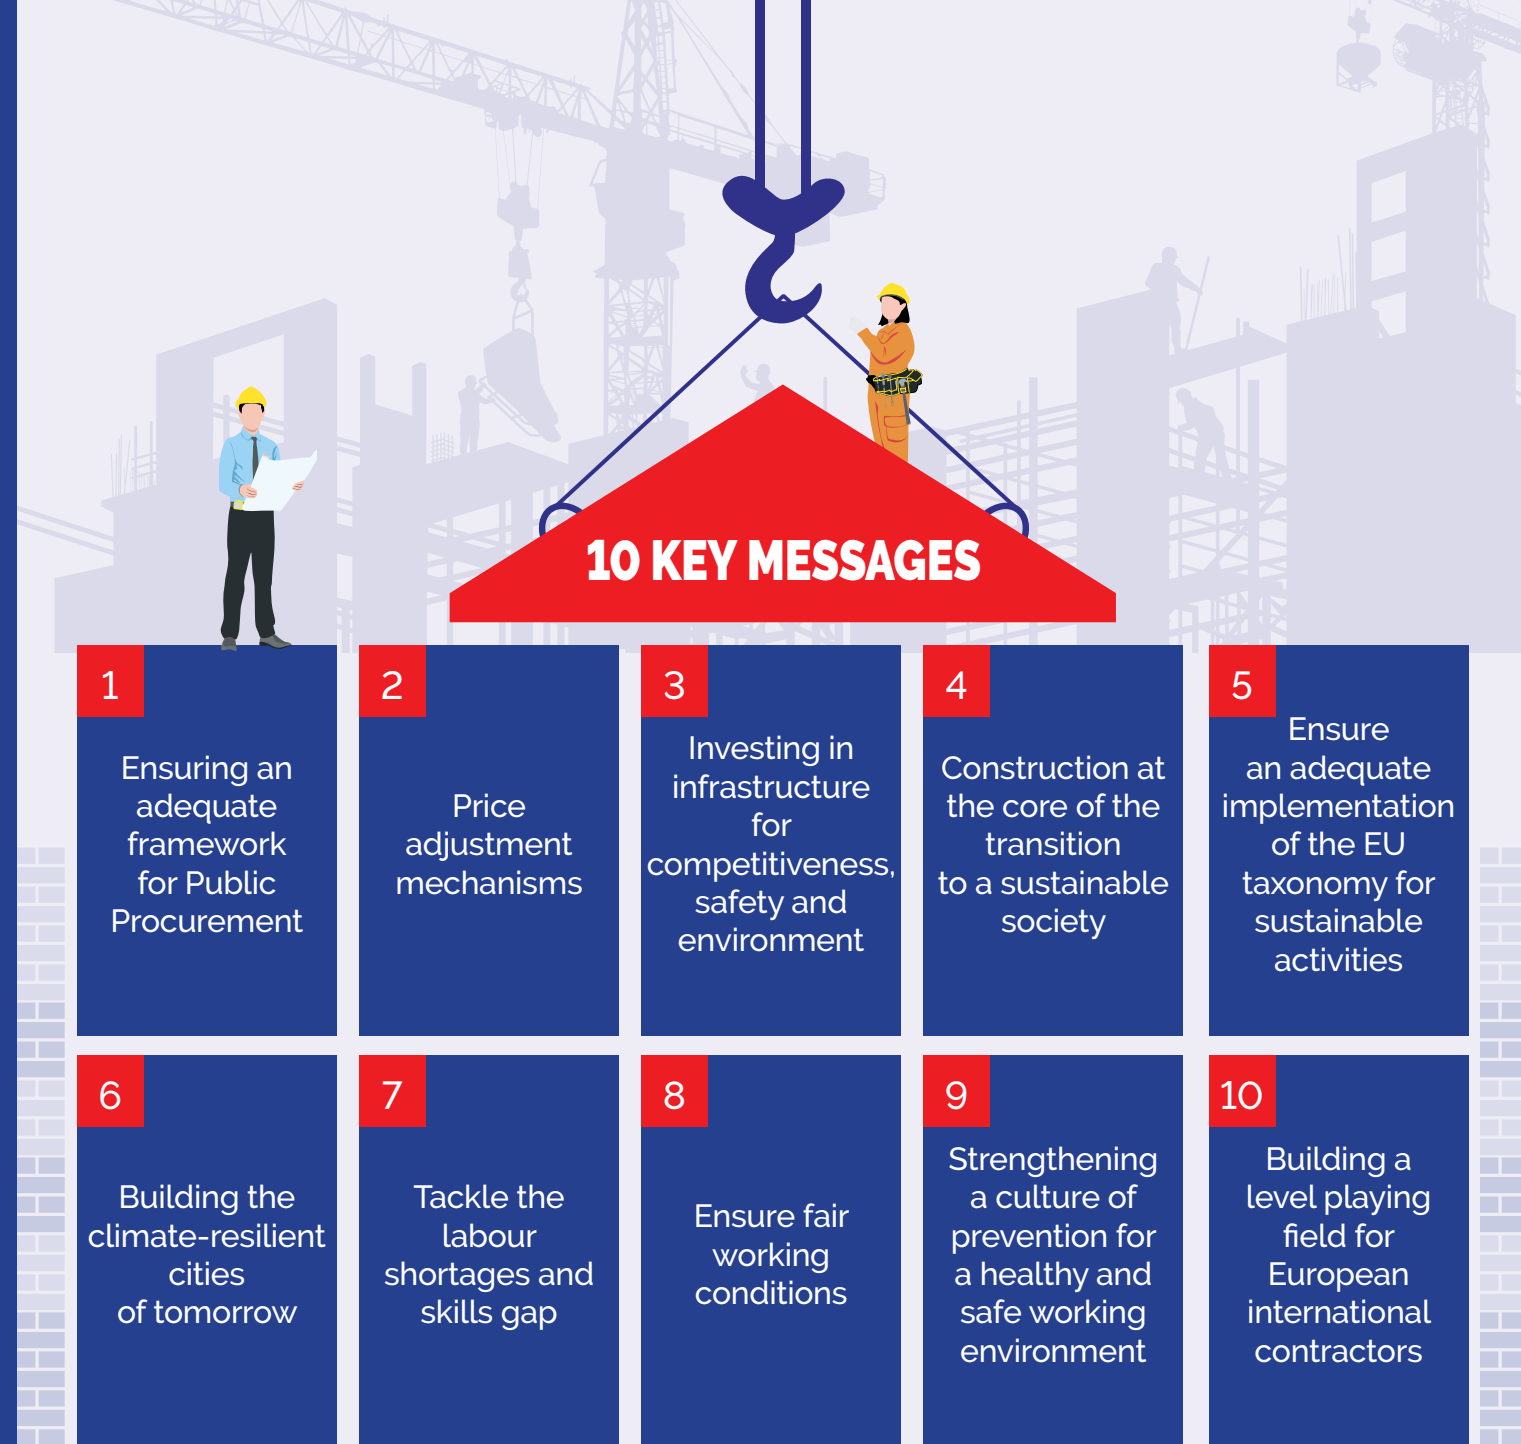

Ahead of the **European Elections 2024**, our **10 key messages** to the candidates are set out to deliver our **vision** for the future of **construction** in Europe.

They represent a needed framework for the implementation of **sustainable development** and **industry innovation**, for the **competitiveness** of our economies, for fostering **investment** in **technology** and in the **workforce** while continuing to improve their **health and safety** conditions.

Each pillar supports our mission to impact decision making and **shape EU policies**.

Read the FIEC Manifesto, **join us in this journey** toward a **greener, more resilient and inclusive built environment**.

PHILIP CRAMPTON
FIEC President

“Our objective is to ensure that the construction sector remains at the core of the EU priorities. The FIEC Manifesto aims at guiding the future EU policy makers on their decisions affecting our sector. Discover what matters for the construction sector for the next 5 years!”

BENOIT CHAUVIN
EIC President

“EIC calls upon EU policymakers to use their legislative powers in Trade, Development and Neighbourhood policies to establish a level playing field for European international contractors working outside the EU.”

FIEC voices the collective interests of the European construction industry. Via its 32 National member federations in 27 countries, we represent construction enterprises of all sizes, from the small family business to the large global players.

We are committed to implementing the green and digital transitions, promoting sustainability, innovation, social dialogue and best practices in the sector. FIEC's main focus is to ensure that the construction industry continues to play a pivotal role in citizens' well-being and in Europe's economic growth and competitiveness.
